

Airport Advice Notice

MUNICIPAL HANGAR PARKING
(pre & post flight parking)

Ref Number: AAN/14/12
Expiry Date: N/A
Issued by: P Smith

It is the responsibility of all employers to ensure that relevant Airport Notices are brought to the attention of their staff. However individuals remain responsible for their own actions and those who are in any doubt should consult their supervisor or manager.

We are experiencing parking problems with Aircraft returning to the hangar following flight. It would seem Municipal Hangar aircraft are parking in the area (shown in yellow) causing access and egress problems for KB and MCA aviation.

Please can ALL USERS of the municipal hangar avoid this area (yellow) and help us to avoid delaying KB and MCA go about their normal business. MCA Aviation in particular require a larger cleared area to gain access their apron. It is therefore vital users keep the link taxiway from Alpha clear around the fuel pumps to the west.

The green area shown below is for Municipal Hangar based aircraft only. Should your aircraft block or infringe another, please inform the fire crew and ask them to hangar or reposition your aircraft if it's not to be used again.

The hatched area in front of the fire station must be kept clear at all times. Never park in front of or obstruct the fire vehicles.

We thank you for your assistance.

Date Issued: 29th March 2012
